Professional Experience

I possess over eight (10) years of experience in various areas of software development and management. Currently I am a Web developer/Programmer for a fast paced company that is gaining a large web presence of which I am a part of. I also continue to consult and develop applications for a range of different clients. Previously I was a CTO for a start-up software company where I was not only a developer, but also in charge of outsourcing and newer technologies. I am a capable web designer/programmer and have created large corporate sites and online design tools. Along with web/graphic design I have built and maintained multiple computers and ran windows/linux based networks.

Technical Skills

PHP • C# • C • C++ • Java • ML • JavaScript • ActionScript • XML • Html • VoiceXML
